

Davis Instruments REACH Statement European Union (EU) Regulation (EC) No 1907/2006, REACH

The Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) is an EU initiative aimed to improve the protection of human health and the environment through safe usage of chemical substances contained within preparations and articles. With respect to the REACH initiative, we offer the following information regarding Davis Instruments' products:

1. Article 7 – Registration

Articles produced by Davis Instruments do not contain substances intended to be released under normal or reasonably foreseeable conditions of use and do not contain any Substances of Very High concern (SVHC) that exceed 1 ton per year. As such, Davis Instruments is not required to notify ECHA under Article 7(1).

2. Article 33 (1) – Communication of Substance Information

Article 33(1) requires a supplier to inform its customers if an article contains a substance(s) on the Substances of Very High Concern (SVHC) Candidate List in excess of 0.1% by weight of that article. On June 25, 2020, ECHA increased the number of substances on the SVHC List to 209 substances.

Davis Instruments continues to evaluate supplier and material composition declarations and through internal material review, Davis Instruments, to the best of its knowledge has determined, except for the (1) SVHC identified in Appendix 1, the other SVHC are not present above the 0.1% weight in any article of Davis Instruments' products or packaging material.

Please refer to the following ECHA list for the most current candidate list of substances:

<https://echa.europa.eu/candidate-list-table>

3. Article 67 Substance Restrictions and Article 56 Authorization

Under Articles 67 and 56, substances listed in Annex XVII and Annex XIV are restricted for use by application or require an authorization prior to use. Davis Instruments, to the best of its knowledge and belief, has determined that there are no known Annex XVII restricted substances or Annex XIV substances subject to authorization contained in Davis Instruments products and packaging.

Appendix 1 – REACH Statement (EC) No 1907/2008, (209 SVHC)

Article 33 of the REACH regulation requires companies to communicate the presence of any REACH Candidate List Substances within supplied articles above the 0.1% by weight threshold. Davis Instruments has identified materials used within some of its products that may contain SVHC substances. These substances are disclosed as:

- Lead (CAS# 7439-92-1)

For some Davis Instruments products identified as RoHS exempt, Lead is contained above the 0.1% by weight threshold. Specifically, this includes the direction vane counterweight of the 6410 and 7911 anemometers.
