

Vantage PRO2™ INSTALLATION DIAGRAM

Cabled Vantage Pro2™

This diagram shows a cabled Vantage Pro2 Plus sensor suite (which include UV and solar radiation sensors) connected to a cabled Vantage Pro2 console. A cabled Vantage Pro2 system allows for a cable connection of up to 100' (30 m). This connection can be extended up to 1000' (300 m) with optional extension cables. Please note that in a cabled system, the Vantage Pro2 console cannot receive data from any station except a cabled sensor suite.
